

Bootstrap Assignment - Documentation

Author: Shreyansh
Contains: 10 folders (Q01..Q10) each with index.html and styles.css.
Bootstrap version: 5 via CDN.
Summary of common Bootstrap utilities and components used across projects:

- Grid system (row, col-*) for responsive layouts.
- Cards for content grouping (.card, .card-body).
- Navbar (responsive) for Q05 portfolio page.
- Forms and form-control utilities for accessible inputs.
- Spacing utilities (m-*, p-*, g-*) for margins, padding and gutters.
- Buttons and button variants (.btn, .btn-primary, .btn-outline-light).
- Utility classes like text-center, text-muted, d-flex, align-items-center.
- Responsive images and embedding (if needed).
- Bootstrap JS bundle for components that require JS (navbar, carousel if used).

Folder-by-folder notes:

Q01: index.html demonstrates grid + cards + basic form. styles.css contains minimal custom CSS with comments.
